Problem Set 8

name?!

date?!

Due date: Monday, November 2nd

ADD PIVOT QUESTIONS

maybe three data sets. one is linked to another by dates, while the second is

A <- B <- C A <- D

B is linked to C by dates A is linked to B by ID A is linked to D by ID

define a key xyz = abc

left joins inner joins

challenge question: anti-join (if neither match)

mental health care facilities? or within a county?
